

About

The Virtual Institute for Artificial Electromagnetic Materials and Metamaterials "Metamorphose VI AISBL" is a non-for-profit international association whose purposes are the research, the study and the promotion of artificial electromagnetic materials and metamaterials.

The main tasks of the Association's are:

- integrate, manage, coordinate and monitor research projects in the field of artificial electromagnetic materials and metamaterials;
- spread excellence in this field, in particular, by organizing scientific conferences and creating specialized journals in this field;
- create and manage research programmes in this field;
- activate and manage training programmes (including PhD and training programmes for students and industrial partners);
- provide information on artificial electromagnetic materials and metamaterials;
- transfer new technology in this field to the European Industry;
- offer advice and services related to artificial electromagnetic materials and metamaterials to industries, producers, distributors, potential users, service suppliers and to the like in Europe and worldwide;

The main document of the association is the METAMORPHOSE VI Statuts:

- in French: METAMORPHOSE_VI-constitution.14-05-2007.fr.pdf (104.74 KB 28.09.2007 10:36);
- in English: METAMORPHOSE_VI-constitution.27-06-2007.eng.pdf (72.61 KB 28.09.2007 10:38).

VI legal information is available [here](#).

President of the Association: Prof. Sergei Tretyakov, Finland

Secretary General: Dr. Vladimir Podlozny, Finland

Board of Directors:

Prof. Filiberto Bilotti, Italy
Prof. Ramon Gonzalo, Spain
Dr. Dorota Pawlak, Poland
Prof. Ekmel Özbay, Turkey
Prof. Said Zouhdi, France

The VI has been designed and created by the Network of Excellence Metamorphose funded by the European Framework Program 6 during 2004-2008.
